HEY THERE

I'm a designer passionate about using design as a communication tool to tell people's stories and inspire others. When I'm not pushing pixels, I'm playing volleyball, adventuring outside, or perfecting my new favorite artform: baking!

EXPERIENCE

Revery / Senior Designer

Work with a creative team focused on developing custom 2D and 3D visuals for the Google Play Store. Working alongside designers, illustrators, and motion designers I help define and refine the brand's visual presence across the Google Play Store. My role includes ensuring continuity across projects by coordinating with full-time staff, freelancers, and guest artists to maintain a consistent aesthetic.

February 2026 - Present (Senior Designer)

Primarily work on an inaugural team of designers, illustrators, animators, and producers to define and execute the visual content for the Google Play Store. Support local and global campaigns reaching billions of users worldwide. Beyond the Google Play account I support broader studio initiatives, including presentation deck design, documentary title creation, and animation storyboarding.
